Re: Letter of Appreciation

Dear Mr. McGarey:

This letter is written to express my appreciation for your exceptional performance during the recent completion of contract HSFLGL-09-F-00321, Provide a Modular Classroom Building for ICE. This was a turnkey project on a very tight schedule, and included special energy consumption and building envelope requirements. Thanks to your expertise and professionalism this project was completed on time and on budget.

This was the second successful project that you have completed for us in the last 2 years. Contract LGL08F00372, Provide 7 Modular Buildings required you to provide 6 office buildings and a health unit building. This project was also on a very tight schedule due to a sudden increase in training demand. This project was also completed on time and on budget.

I would also like to thank you and the staff of Spectrum Building Systems, Inc. for your continued support by standing behind what you sell. I hope we get the opportunity to work together again in the future.

Sincerely,

A handwritten signature in blue ink that reads "R. Kretschmar".

Rick Kretschmar, Project Manager
